 **LEXUS METAL**  
**INTERNATIONAL**  
Manufacturers & Exporters of all kinds of Brass Components

# Profile

We Lexus Metal International Located in western part of INDIA in a Brass Industrial Hub of Gujarat JAMNAGAR, establish in year 2011. We are sister company of KAMAL AUTO INDUSTRIES who are well reputed and established company as a leading manufacturer and Exporter of Quality Brass Products since 1972.

We are young and dynamic company engaged in export and import business activity mainly focuses on non-ferrous metal - Brass customizes products and importing quality raw-material from international market to produce quality products. We work as a manufacturer's contractor and export house to supply quality products used for Automotive, Aerospace, Electrical, Electronic, Fastening Fixtures, Building Construction, Telecommunication and Network, Agriculture, Automobile, Pneumatic, Hydraulic and any type of fitting components as per specifications or drawings and samples with value added services to customer by satisfying ultimate needs by providing quality services and on-time delivery with quick and efficient logistic solution.

## Our Aim:

We at Lexus Metal International aim to meet client's custom requirement with highest level customer services and efficiency with the implementation of cutting-edge technology and accumulated experience. We continuously look forward to develop new products along with co-operation with our buyers & consultants. Our company is always open to new ideas, product development, and OEM products.

## Quality Control

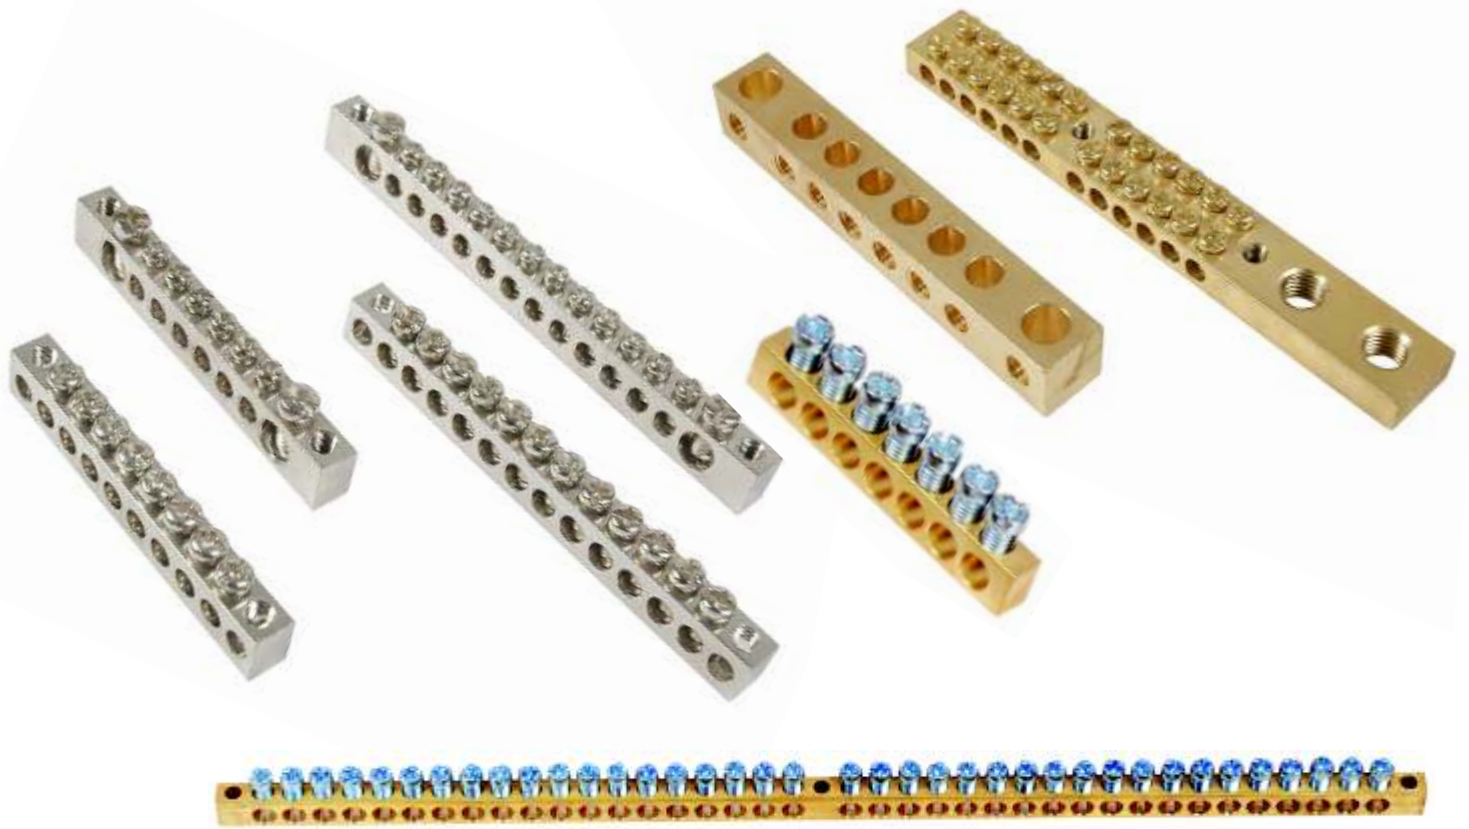

Our products and services must be developed and integrated throughout the entire supply chain into capable processes to achieve Six Sigma levels of performance. Management must ensure that working conditions are safe and conducive for Six Sigma performance. Ethical conduct and compliance with safety, health, environmental and legal regulations are fundamental on premises of our business..

Our target is to reduce variability to achieve zero defects for our products and services while improving cycle times. Each defect must be eliminated by systematic corrective and preventative measures. And currently maintaining 97 % on-time delivery of goods to our customer to provide with highest level of service satisfaction, which is quite remarkable as compared to our competitor.

Customer satisfaction is a key to success for every business and we believe customers' satisfaction comes from dedicated and intelligent efforts of each & every Employee of our organization accompanied with Safe, Comfortable and Pleasant working Environment. Training at regular interval is provided for sharing personal skill & build deeper knowledge.
